

Committed and with passion for precision we create digital reality solutions combining sensor, software, and autonomous technologies to empower a sustainable future.

Join as an Intern our dynamic and multicultural team, where you will be involved in manual testing of state-of-the-art robotic systems, both software and hardware, to ensure the highest quality.

Manual Test Intern (f/m/d) for Robotics Systems

Zürich  80-100%

This appeals to you

- Conduct accurate and systematic manual tests to identify defects, inconsistencies, and areas for improvement based on stakeholder specifications
- Perform regression tests to ensure software changes do not disrupt existing functionality
- Document and report issues, and promptly re-test after fixes are applied
- Collaborate with cross-functional teams, including developers and other testers, to achieve optimal results
- Gain hands-on experience with advanced robotic systems

This is you

- Higher education in robotics, computer science, or a related field is preferred
- Basic experience with Linux and version control systems (git)
- Basic understanding of ROS is a plus
- Experience in programming (C++, python) is a plus
- Experience as a manual tester or in a similar role is an advantage
- Analytical thinking, problem-solving, and attention-to-detail skills
- Ability to follow instructions, work independently, and collaborate effectively in a team environment
- Comfort in working within a multicultural and evolving environment
- Proficiency in English is required

We offer you

- Flexible annual working hours based on a 40-hour week, with 100% employment

- Vacation entitlement: 25 days from the age of 20, 27 days from the age of 40 and 30 days from the age of 50
- Hybrid Working model
- Generous bonus system and extra-mandatory pension fund contributions
- Individual training opportunities (internal and external)
- Relocation service
- Various Discounts (Health, Car, Entertainment and much more)
- Employee Events
- Flat hierarchy structure
- Warm and international corporate culture based on respect and cooperation

About Us
