Unimaginativeness	★	★	★	★	★

**Committed and with passion for precision we create digital reality solutions combining sensor, software, and autonomous technologies to empower a sustainable future.**

Our new team within Innovation Hub GmbH is responsible for adopting latest technologies and sensors and turn them into exciting, revolutionary products for different markets in an agile way.

This requires motivated professionals who love to think out of the box, work closely with colleagues from various other disciplines and are ready for taking responsibility.

Make your vision come true, join this team built up from scratch!

## Mechanical Design Engineer (f/m/d)

Heerbrugg  80-100%

### This appeals to you

- Turn functional ideas into assemblies and sub - assemblies
- Design of related components in CAD, derive documentation such as drawings, technical specification, test reports for suppliers, production and assembly
- Engage in technical negotiations with suppliers & assembly department in order to optimize parts, sub-assemblies manufacturability and production yield
- Test and verify the functionality of your parts & sub-assemblies
- Collaborating with multi-discipline and diverse project teams
- Contribute to continuous improvement of processes within the R&D Team

### This is you

- Bachelor or Master degree in Mechanics or similar based on an apprenticeship as design technician or mechanic
- You have proven track record of 3+ years in a mechanical engineering environment
- Several years of experience in CAD designing is a must; preferable in Siemens NX
- Entrepreneurial mindset, highly motivated with a proactive attitude and hands-on mentality
- Open-minded team player with great interpersonal and communication skills
- Experience in opto-mechanics / optronics or bearing systems is a plus
- You enjoy working in an interdisciplinary and international team using German and English
- Basic Knowledge in electronics, SW development, Matlab or Python is an asset

## About Us

Hexagon is a leading provider of digital reality solutions and employs more than 24,000 people in 50 countries. You will be part of a strong, experienced, inspiring and motivated team of experts driving the future of Hexagon. You will use and develop your skills in our highly innovative and diverse environment.

Flexible working models allow you to ideally combine work and private interests.
