

Committed and with passion for precision we create digital reality solutions combining sensor, software, and autonomous technologies to empower a sustainable future.

Are you passionate about working in an international, highly motivated, and service-oriented cross-functional team? If so, join our team and turn your vision into reality!

Senior DevOps Engineer (f/m/d)

Heerbrugg  100%

This appeals to you

- Automating .NET-based build and deployment processes to boost productivity
- Selecting and integrating modern tools and technologies to enhance CI/CD efficiency
- Designing robust system architectures and optimizing pipelines through sound decision-making
- Developing custom tools when off-the-shelf solutions fall short
- Collaborating across international teams and aligning with IT operations on infrastructure
- Using modern tools, including AI-enabled solutions

This is you

- Significant software development experience in C# / .NET (TDD, Clean Code, NuGet)
- Strong expertise in CI/CD automation (preferably GitHub Actions) with solid experience in Git workflows and branching strategies
- Experience with containerized environments (Docker for Linux & Windows) and Infrastructure as Code (Terraform, CDK .NET, Packer)
- Knowledge of release management, versioning concepts, and binary management systems (e.g., JFrog Artifactory)
- Confident, assertive, and results-driven communicator with strong technical skills and excellent English

We offer you

- Flexible annual working hours based on a 40-hour week, with 100% employment
- Vacation entitlement: 25 days from the age of 20, 27 days from the age of 40 and 30 days from the age of 50
- Hybrid working model

- Bonus system and extra-mandatory pension fund contributions
- Individual training opportunities (internal and external)
- Relocation service
- Various discounts (Health, Car, Entertainment and much more)
- Employee events
- Flat hierarchy structure
- Warm and international corporate culture based on respect and cooperation
