

Committed and with passion for precision we create digital reality solutions combining sensor, software, and autonomous technologies to empower a sustainable future.

Are you passionate about working in an international, highly motivated, and service-oriented cross-functional team? If so, join our team and turn your vision into reality!

Senior DevOps Engineer .NET (f/m/d)

Heerbrugg  100%

This appeals to you

- Automating .NET based build and deployment processes to improve productivity for our production and service software
- Strategically selecting and introducing tools and technologies to enhance the efficiency of our CI/CD environment
- Establishing a robust overall system architecture and streamlining pipelines and processes through objective and well-founded decision-making
- Extending our tool landscape with self-developed tools when out of the box solutions do not fit
- Working in an international and cross-location team
- Working on complex challenges that push the boundaries of your skills and knowledge, allowing you to continuously learn and grow technically and personally
- Collaborating with IT operations for infrastructure alignments
- Using AI enabled tools

This is you

- Significant software development experience in C# / .NET (TDD, Clean Code, NuGet)
- Deep understanding in design and automation of CI pipelines preferably with GitHub Actions
- Know-how in containerized environments with Docker (Linux and Windows)
- Highly skilled in Version Control Systems especially in Git with expertise in branching strategies
- In-depth knowledge about release management, versioning concepts and dependency management
- Expertise in Infrastructure as Code in technologies preferably with Terraform, Terraform CDK .NET or Packer
- Experience in working with binary management systems preferably JFrog Artifactory
- A strong level of assertiveness, enabling confident and impactful representation of ideas and technical arguments
- Great communication and negotiation skills in English

with a proactive and result-driven personality

We offer you

- Flexible annual working hours based on a 40-hour week, with 100% employment
 - Vacation entitlement: 25 days from the age of 20, 27 days from the age of 40 and 30 days from the age of 50
 - Hybrid working model
 - Bonus system and extra-mandatory pension fund contributions
 - Individual training opportunities (internal and external)
 - Relocation service
 - Various discounts (Health, Car, Entertainment and much more)
 - Employee events
 - Flat hierarchy structure
 - Warm and international corporate culture based on respect and cooperation
