

**Committed and with passion for precision we create digital reality solutions combining sensor, software, and autonomous technologies to empower a sustainable future.**

As a team player, your vigor is contagious, and you engage your colleagues. No matter the task, you go ahead with an open mind. If loyalty as well as solidarity and reliability are a matter of course for you, join our team and make your visions come true!

## Intern Product Engineer (f/m/d) in SW PM - Reality Capture

Heerbrugg  100%

### During the Internship you will

- Gain in-depth knowledge of the RC Software Portfolio, including Field, Cloud, and Office applications.
- Work closely with product management teams across multiple European locations.
- Conduct testing with a focus on Field applications and Data Management Troubleshooting.
- Evaluate third-party software integrating the LGSxSDK, identifying key integrations and industry workflows.
- Assist in creating product documentation, workflow guides, training materials, and support resources.

### We offer you

- Flexible working hours based on a 40-hour week, with 100% employment for 6 months
- Various Discounts (Health, Car, Entertainment and much more)
- Employee Events

### This is you

- A recent graduate or final-year student in Surveying Engineering, Civil Engineering, or a related field.
- Eager to learn and experiment with 3D reality capture software, with a hands-on approach to testing and understanding workflows.
- Adaptable team player with a collaborative mindset, enthusiastic about working in a dynamic and multicultural environment.
- A good communicator who can both understand others and make yourself understood.
- Proficient in English (knowledge of additional languages is a plus).

- Flat hierarchy structure
- Warm and international corporate culture based on respect and cooperation

## About Us
