

Committed and with passion for precision we create digital reality solutions combining sensor, software, and autonomous technologies to empower a sustainable future.

In this dynamic role, you support our worldwide supply chain organisation on key business and performance topics while taking ownership of your own defined functional areas. You support the Global Supply Chain Controller, turn data into insights, identify optimisation opportunities, and act as a sparring partner to management in critical decision-making and investment processes. You'll contribute to forecasts, budget planning, financial closings, and global improvement projects - always with the goal of creating transparency, strengthening processes, and driving the sustainable performance of our supply chain.

Controller Supply Chain (f/m/d)

Heerbrugg  100%

This appeals to you

- Support of the Global Supply Chain Controller in all financial and business-related matters within the context of the global supply chain organisation (production, logistics, and procurement)
- Independent responsibility for defined supply chain areas and acting as a business partner for local management:
 - Financial steering of assigned areas
 - Sparring partner in decision-making processes and investment decisions
 - Identification of optimisation potentials
 - Presentation of relevant KPIs and derivation of clear action recommendations
- Support in financial management, target tracking, and KPI transparency within the global supply chain organisation
- Participation in monthly, quarterly, and annual financial

This is you

- University or university of applied sciences degree (Bachelor/Master) in Business Administration, Finance, or a comparable field
- 2–4 years of professional experience in controlling, ideally in a production or supply chain environment
- Strong analytical skills and a solid understanding of operational processes
- Excellent knowledge of Microsoft Excel and PowerPoint; experience with SAP (S/4HANA), SAP BW, SAP Analytics Cloud, or OneStream is an advantage
- Structured, independent, and solution-oriented working style with high-quality standards
- Proactive, team-oriented personality who enjoys cross-functional collaboration in an international environment
- Very good German and English skills, both written and

closings (IFRS), including analyses, variance explanations, and presentations with clear action recommendations

- Contribution to financial steering, target tracking, and KPI transparency within the global supply chain organisation
- Preparation of forecasts, budget planning, and ad-hoc analyses — including deriving concrete measures for process improvement
- Support in the annual standard-costing process and in calculating manufacturing costs in collaboration with the central costing team
- Participation in global projects aimed at optimising supply chain performance, digitalisation, and process harmonisation

spoken

- Willingness to work on-site in Heerbrugg approx. 3 days per week

We offer you

- A strong, experienced, and supportive controlling community
- The opportunity to shape both strategically and operationally as a business partner
- A global, diverse, and innovative working environment
- Freedom for your development and the opportunity to take on new tasks according to your interests and strengths
- A corporate culture that promotes responsibility, impact, respect, and cooperation
- Flexible annual working hours based on a 40-hour week, with 100% employment
- Holiday entitlement: 25 days from age 20, 27 days from age 40, and 30 days from age 50
- Bonus system and supplementary pension fund contributions
- Individual development opportunities (internal and external)
- Various employee discounts (health, car, shops, entertainment, and much more)
- Employee events (summer party, New Year's reception, etc.)
