

Committed and with passion for precision we create digital reality solutions combining sensor, software, and autonomous technologies to empower a sustainable future.

As an IT System Engineer, at Hexagon Geosystems Services I can not only pursue creative new ideas, but watch them grow and finally their implementation and application in directly shaping future-oriented products.

IT System Engineer – Cloud Architect (f/m/d)

Dornbirn  100%

This appeals to you

- You are the owner of our IT cloud-environments
- You like to work on architecture and governance for IT services
- You take care of the design, the implementation, the operation and optimization of IT services
- Ensuring availability and service quality are part of your tasks
- In your day-to-day business you discuss and consult with our internal customers around the globe
- You analyze, coordinate and provide support in the event of incidents
- You work in close cooperation with our internal and external partners

This is you

- Relevant technical education
- Several years of experience in Cloud technologies & architecture and governance (Azure, AWS, ...)
- Several years of experience in Data Center infrastructure
- Knowledge in „Infrastructure as Code“ (Terraform, ...)
- Knowledge in Container Technologies (Kubernetes) is a plus
- Passion for new technologies
- Team player with strong communication skills
- High level of responsibility, initiative and reliability
- Very good German and English language skills

We offer you

- Optimal work-life balance thanks to very flexible working hours and a hybrid working model
- Exciting career growth with training and development opportunities
- Creative freedom and responsibility in a globally expanding company

- Relocation support
- Modern and inspiring workspace at the LifeCycle Tower (LCT ONE) in Dornbirn
- Convenient commute options with excellent public transport connections
- Vibrant employee events
- Flat hierarchy structure encouraging open communication and collaboration
- Warm, international corporate culture rooted in respect and cooperation
