Hexagon's Geosystems division provides digital solutions that capture, measure and visualise the physical world, enabling data-driven transformation.

Are you passionate about working in an international, highly motivated, and service-oriented DevOps Platform team?

We are looking for a Senior DevOps Platform Engineer with deep expertise in CI/CD, automation and platform engineering, with a strong interest in applying AI-assisted automation to improve development productivity, reliability and speed of delivery.

Senior DevOps Platform Engineer (f/m/d)

Heerbrugg   80-100%

This appeals to you

- Designing, building and maintaining a CI/CD pipeline platform with a strong focus on abstraction and self-service capabilities for development teams
- Introducing AI-assisted tooling such as LLMs to reduce manual efforts, as well as analyse and optimize existing workflows
- Enhancing developer experience to increase productivity for multiple international, cross-located teams
- Strategically selecting and utilizing state of the art technologies
- Integrating security and compliance related processes (DevSecOps)
- Sharing best practices with other engineers to raise the overall DevOps maturity of the organization
- Gaining comprehensive insights across diverse disciplines ranging from embedded and office

This is you

- Significant software development experience favourably in Python, Kotlin, C# or C++
- Extensive knowledge of CI/CD Systems preferably in TeamCity or GitHub Actions
- Practical expertise using AI tools and the ability to identify and enhance real, high-value use cases
- Proficiency in Infrastructure as Code (Terraform, Ansible, Packer) and containerized environments (Docker)
- An entrepreneurial, improvement and result driven mindset with a strong commitment towards ownership
- Motivation and drive to shape, complemented by a competent, fact-based representation of concepts and ideas
- Basic understanding of cloud technologies (AWS, Azure, GCP)

software to IT operations

We offer you

- Flexible annual working hours based on a 40-hour week, with 100% employment
- Vacation entitlement: 25 days from the age of 20, 27 days from the age of 40 and 30 days from the age of 50
- Hybrid working model
- Bonus system and extra-mandatory pension fund contributions
- Individual training opportunities (internal and external)
- Relocation service
- Various discounts (Health, Car, Entertainment and much more)
- Employee events
- Flat hierarchy structure
- Warm and international corporate culture based on respect and cooperation
