At Geopraevent, as part of Hexagon, we design, develop, manufacture, install, and operate integrated hardware and software solutions for monitoring and alerting of gravitational natural hazards.

We detect ice and snow avalanches, debris flows, tidal waves, floods, or glacial lakes to secure populated areas, threatened traffic routes, and infrastructure.

We place a strong emphasis on custom, reliable solutions. Thanks to our interdisciplinary team, we can independently develop hardware and software systems and implement customer projects quickly and efficiently.

In the position of Consultant for Monitoring Solutions, you will work as part of our Consultative Sales Team to solve specific problems in the area of gravitational natural hazards, which are of high priority for our customers. The workplace is in Zurich, with regular travel to the Alpine region or mountainous areas worldwide.

To strengthen our team, we are looking for an expert in natural hazards (natural, environmental and earth scientists, geologists, or geomatics engineers).

Expert in Natural Hazards – Consultant for Monitoring Solutions (m/f/d)

Zürich  80-100%

What Appeals to You

- **We detect to manage natural hazards:** You make a significant contribution to safety in the alpine region.
