Committed and with passion for precision we create digital reality solutions combining sensor, software, and autonomous technologies to empower a sustainable future.

As a team player, your vigor is contagious, and you engage your colleagues. No matter the task, you go ahead with an open mind. If loyalty as well as solidarity and reliability are a matter of course for you, join our team and make your visions come true!

Surveying Intern (f/m/d) Field Software Product Management

Heerbrugg  100%

This appeals to you

- Develop a deep understanding of Surveying Field Software, industry challenges, and user requirements
- Field-test the latest Leica Geosystems surveying technology to evaluate performance and usability
- Support the creation of product documentation, training materials, and user guidance
- You enjoy working on-site Monday to Friday, collaborating closely with the team and technology

This is you

- You are educated (or currently studying) in Surveying or Civil Engineering
- You have hands-on experience with robotic total stations and GNSS rovers
- You are fluent in English; German skills are a plus
- You can analyze ideas, goals, and challenges and translate them into clear, actionable steps
- You have strong communication skills, able to effectively understand others and make yourself understood

We offer you

- Flexible working hours based on a 40-hour week, with 100% employment for 6 months
- Various Discounts (Health, Car, Entertainment and much more)
- Employee Events
- Flat hierarchy structure

- Warm and international corporate culture based on respect and cooperation
