Hexagon’s Geosystems Business Area provides digital solutions that capture, measure and visualise the physical world, enabling data-driven transformation.

As an Internship Product Engineer at Leica Geosystems, you will join a hands-on team focused on testing and validating hardware and software solutions. You will support product development and contribute to new releases.

With a strong focus on practical execution, you will help ensure high quality standards and translate customer needs into technical requirements.

This role is ideal for candidates with a background in surveying or geomatics who want to develop their technical skills in a real-world product environment.

Internship Product Engineer (m/f/d)

Heerbrugg  100%

This appeals to you

- Be part of a multicultural and agile product management team driving innovation in the field of total stations and software for the construction industry
- Contribute to new hardware and software releases
- Test hardware and software to ensure our solutions meet Leica Geosystems’ high quality standards
- Understand customer-specific requirements and translate them into product specifications
- Support the product management team in day-to-day activities
- Contribute to competitive benchmarking and the development of product improvement strategies
- Creation of training materials

This is you

- Currently studying or holding a degree in Geomatics, Surveying, Civil Engineering, or a similar discipline, with a strong interest in technical product environments
- Available for a minimum of 6 months and motivated to gain hands-on industry experience in a real-world setting
- Solution-oriented mindset with a strong interest of structured problem-solving, especially in technical or product-related challenges
- Comfortable working in collaborative, cross-functional teams while also being able to take ownership and work independently when required
- Creative and proactive, with a strong interest in bringing in own ideas to improve processes, products, or ways of working
- Fluent in English (written and spoken); German

language skills would be considered a plus

We offer you

- Flexible working hours based on a 40-hour week, at 100% employment for 6 months
- Various Discounts (Health, Car, Entertainment and much more)
- Employee Events
- Flat hierarchy structure
- Warm and international corporate culture based on respect and cooperation
