

Electronic Design Engineer (f/m)

Committed, dynamical and with a passion for precision, we revolutionise the world of measurement and survey.

In international and interdisciplinary teams, we develop smart precision measuring instruments for various fields of application. Technical innovations are your passion? You implement your ideas with reliable flair? Join our team and make your visions come true!

This appeals to you

- Development of complex high bandwidth analog and digital circuits
- Implementing demanding designs for signal processing and high speed communication interfaces
- Building functional models and prototypes for new technologies
- Measurement and characterization of electronic assemblies
- Collaboration as system architect in interdisciplinary R&D projects
- Development of Electronic designs in collaboration with internal and external partners

This is you

- You have a Bachelor or Master degree in electrical engineering
- You have several years of professional experience in the field of high frequency circuit design
- You have completed your studies in electrical engineering
- You enjoy developing an electronics design using the latest mobile processor technologies
- You are experienced in integrating Mobile Processors, FPGA or DSP
- You are familiar with the current data interfaces such as USB-C, Ethernet, WLAN
- You are open minded and motivated to develop something new

- You like to think "out of the box"
- You enjoy working in an interdisciplinary and international team
- You like to speak English
- You are innovative

Über uns

Unsere innovativen Lösungen und Produkte sind gekennzeichnet durch höchste Effizienz und Zuverlässigkeit und werden überall dort eingesetzt, wo es ums Erfassen, Analysieren und Präsentieren von 3D Informationen geht. Verbessere auch Du mit uns die Zukunft, werde Teil unseres Teams und einer globalen Erfolgsgeschichte.

Wie kann ich mich bewerben

Wenn Du Interesse an dieser herausfordernden und abwechslungsreichen Position hast, dann freuen wir uns auf Deine Online Bewerbung! Aufgrund der Datenschutzgesetzgebung dürfen wir Bewerbungen nur über das Bewerbungstool entgegennehmen.

About Us

Our innovative solutions and products are characterised by the highest efficiency and reliability. They are used wherever it is all about recording, analysing and presenting 3D information. Improve your future with us, become part of our team and this global success story.

How can I apply

If you are interested in this challenging and varied position, then we look forward to receiving your online application! Due to the privacy policy, we accept applications only via the application form.
