

Hexagon's Infrastructure & Geospatial Business Area combines measurement, positioning, and mapping technologies to help geodata-dependent industries capture, measure, and visualise the physical world – turning data into actionable insights for better decisions and greater efficiency.

Join our global team and help shape how Quality, Business Excellence, Health, Safety & Environment are implemented across an international organisation.
In this role, you will work across countries, functions and business areas, helping to build practical frameworks, improve processes and support local teams in bringing global standards to life. The scope covers more than 6,000 employees and at least 150 facilities, offering plenty of opportunity to make a visible impact.

Global Quality & HSE Specialist (m/f/d)

Remote (Spain, Italy or Poland) 100%

This appeals to you

- Shape and implement global frameworks across Quality Management, Business Excellence and HSE
- Support international entities in translating global requirements into practical local processes
- Help build and improve processes from the ground up, particularly within the evolving Health & Safety area
- Coordinate Quality and ISO-related activities across different entities and support consistent ways of working
- Drive continuous improvement and help identify practical solutions to operational challenges
- Collaborate with stakeholders across countries, functions and organisational levels in a highly international environment
- Work across a broad variety of topics rather than focusing on one specialised area

This is you

- Experience in Quality Management, Business Excellence, Process Management, HSE or a related field
- Good understanding of management systems and quality-related processes; practical knowledge of ISO 9001 is particularly valuable
- Knowledge of ISO 14001 and/or ISO 45001 is an advantage
- Experience defining, coordinating or implementing processes across different teams or entities
- Comfortable working with international stakeholders and navigating different local requirements
- Structured and organised, with a practical and solution-oriented way of working
- Curious and eager to learn, with the confidence to question existing processes and suggest

- Visit different locations internationally to better understand local environments and support implementation on site

improvements
- Able to take ownership and work independently while contributing to a collaborative global team
- Flexible and comfortable working in an evolving environment where not every process is fully established yet
- Strong communication and stakeholder management skills
- Fluent English
- Willingness to travel internationally when required

We offer you

- Flexible annual working hours based on a 40-hour week
- Remote working model
- Bonus system and extra-mandatory pension fund contributions
- Opportunities for personal and professional development
- Employee discounts
- International working environment with collaboration across teams and countries
