Committed and with passion for precision we create digital reality solutions combining sensor, software, and autonomous technologies to empower a sustainable future.

Our M.App Enterprise Solution Team within the Innovation HUB improves the resilience and sustainability of the world's critical services and infrastructure. Our technologies transform complex data about people, places and assets into meaningful information and capabilities for better, faster decision-making in public safety, utilities, defense, transportation and government.

Making the world's critical services and infrastructure more resilient and sustainable. Join our team in our Vienna offifce and work with exciting technologies.

Fullstack (C# / .NET) - Developer (m/f/d)

Vienna   100%

This appeals to you:

- Write geospatial software and develop APIs, working with large codebases and across different industries.
- Development and maintenance of highly-scalable TypeScript web applications as well as backend code (.NET) as part of an agile software development team.
- Design the software architecture of the applications with our lead developers
- Support us in choosing new tools and technologies

This is you

- Experience with modern web technologies (Webpack/Rollup, ES6+, ReactJS, Typescript)
- Experience in C# / NET
- Solid understanding of SQL databases such as Microsoft SQL Server, PostgreSQL or Oracle
- Work in an agile development environment (Git, Jira, Azure DevOps)
- 5+ years of professional experience in Full Stack software engineering
- Degree in computer science or software engineering or similar work experience in related fields
- Passion for clean and maintainable code
- Strong communication skills in German and English
- Great team player, reliable coworker and enthusiastic innovator

We offer you

- Have a great impact on our product, future development process and utilized tech stack
- Dynamic culture and flat hierarchy
- Hybrid working model (this is not a remote position)
- Opportunity to experiment with any new technologies and tools
- Flexible working hours with high focus on a good Work-Life-Balance
- Regular events to stay
- Team spirit and a passion for geospatial technology
- Modern and centrally located office at the Vienna Central Station

About Us

Hexagon is a leading provider of digital reality solutions and employs more than 24,000 people in 50 countries. You will be part of a strong, experienced, inspiring and motivated team of experts driving the future of Hexagon. You will use and develop your skills in our highly innovative and diverse environment.

Flexible working models allow you to ideally combine work and private interests.

According to the IT collective agreement, we offer € 3,455.00 gross per month for this position. Depending on qualifications and experience, overpayment is possible.

How can I apply

If you are interested in this challenging and varied position, then we look forward to receiving your online application! Due to the privacy policy, we accept applications only via the application form. In case you have any questions regarding our positions or our company please contact Brigitte Schnetzer
