**Hexagon's Geosystems division provides digital solutions that capture, measure and visualise the physical world, enabling data-driven transformation.**

Welcome to [Geospatial Content Solutions \(GCS\)](#), a business area within Hexagon Geosystems. GCS designs and develops revolutionary technologies built to enhance solutions in aerial data acquisition, processing, and DaaS content. As **Product Manager / Teamleader**, your role will be pivotal in gaining insight into our customers' current and future needs. Evaluating and quantifying ideas and improvements, which are co-developed with R&D.

## Product Manager / Teamlead – Airborne Solutions (f/m/d)

Heerbrugg  100%

### This appeals to you

- Evaluate customer needs and define & justify new solutions and improvements co-developed in HW and SW
- Collaborate in interdisciplinary projects from the business plan to the product release
- Lead a distributed team of product managers and application specialists responsible for airborne sensor and data workflow products
- Align and plan assignments in team to achieve overall goals, continuously improve efficiency and transparency
- Guide and interact globally with customers, partners, sales and support teams
- Manage and monitor the life cycle of products from definition to phase out
- Collaborate with customers and sales, and present airborne solutions during exhibitions and conferences
- Assess new applications and their business potential
- Define products plans, contribute to roadmaps and communicate vision and goals

### This is you

- Proven track record as a product manager with at least five years in development of complex technical systems (hardware & software) and requirement gathering methodologies.
- University degree in engineering or physical science with solid practical experience
- Knowledge in geospatial, imaging and Lidar applications is an advantage
- Entrepreneurial and persistent with focus and a holistic perspective on customer benefits and ROI
- Self-reliant and organized in reaching goals and drawing conclusions
- Analytical in solving problems and transparent in setting priorities in an interdisciplinary environment
- Curious to explore new solutions while managing risks, motivated to continuously learn
- Hands-on team player with excellent listening, interpersonal and communication skills in English and German
- Experience as team leader is required, both direct and

in a matrix

- Up to 30% travel might be required

## We offer you

- Flexible working hours based on a 40-hour week
- Vacation entitlement: 25 days from the age of 20, 27 days from the age of 40 and 30 days from the age of 50
- Bonus system and extra-mandatory pension fund contributions
- Individual training opportunities (internal and external)
- Various Discounts (Health, Car, Entertainment and much more)
- Employee Events
- Multicultural and supportive environment

[Here](#) you can find more information about us as an employer .
